Assignment 5

Palette 1: AI (RGB)

rgb(2, 62, 115)	rgb(4, 96, 217)	rgb(3, 101, 140)	rgb(121, 208, 242)

I chose these colors because they came from the image I created in Lesson 3. These colors represent the theme of AI.

Palette 2: Purple Dreams

#2B1F57	#3D2B7D	#4F37A4	#654BC4

I chose this purple palette because it reminds me of the dark themes I would choose in settings in different technologies. So, I chose these colors in a monochromatic style.

Palette 3: Night Time (HSL)

hsl(250, 50%, 21%)	hsl(268, 50%, 27%)	hsl(319, 73%, 30%)	hsl(224, 76%, 34%)

This palette I also created from another one of my images on my website. These colors are the prominent ones that remind me of different colors of light.

Palette 4: (Hexadecimal)

#0777D9	#034873	#04738C	#7EDDF2

Lastly but not least, this palette I created came from a different image I used on my website. I was honestly surprised because I thought the main colors would be darker
